

The Carbon Chronicle

New Volume 2, Number 20

CARBON, ALTA., THURSDAY, FEBRUARY 13, 1947

Authorized as second class mail, Post Office Department, Ottawa.

CARD OF THANKS

Mrs. Henry Forsch and family wish to thank friends and neighbors for expressions of sympathy and floral offerings received in our recent bereavement through the loss of our loving husband and father.

Especially do we thank Rev. Schatz, Rev. Milbrandt and Rev. Wegner, also the Bridgeland Baptist Church and Jacques Funeral Home.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of JACOB J. BERTSCH, late of Carbon, in the Province of Alberta, Farmer Deceased.

Notice is hereby given that all persons having claims upon the estate of the above-named Jacob J. Bertsch, who died on the 14th day of July 1945, are required to file with Albert Bertsch, Grainger, Alberta, by the 31st day of March 1947, a full statement duly verified of their claims and of any securities held by them, and that after that date the administrator will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

Dated this 7th day of February, 1947.

HAROLD E. CROWLE

Solicitor for the Administrator.

332 Alberta Corner,
Calgary, Alberta.

OFF THE RECORD

It is said that competition will be so keen in the near future that training for such a trade as hair dressing will require more education. Yes, this isn't hard to understand since it does involve much head work!

CHINESE RELIEF FUND

These people are really suffering, give a dime or a quarter or a dollar.

Yes, sure you will.

The Aid to China Campaign is in full swing every where. We must do our small part.

You will find subscription lists with:

S. F. TORRANCE

C. H. NASH

DAN RUSLER

Monies subscribed to the fund are expended in Canada for Canadian goods which are distributed in China for relief purposes under the supervision of a committee of Canadian residents in China.

Don't rush, causing long waiting queues. Just take it easy, but do it.

★ Mr. and Mrs. W. Desautels Auction Sale. 2 1-2 miles north and half a mile west of Redlands will be held on Tuesday, Feb. 18th.

OUR HALF ACRE

By H. J. Umbrite
Barley For Weed Control

Olli barley has proven to be an effective crop for the controlling of wild oats. Because this barley is early maturing, seeding can be delayed until the middle of June. Land that is to be seeded to Olli barley should be worked the first thing in the spring. Wild oats will germinate better when the land is cultivated and often two crops can be destroyed before the barley is seeded. Seeding should be at the rate of two bushels per acre and fertilized. Heavy seeding is necessary because when barley is seeded this late it does not stool very much. The crop should be harvested when it is on the green side to prevent any wild oats that have grown from shattering. Fall cultivation has proven to be very effective in the hastening of the germination of wild oats and should be commenced immediately after the crop of barley has been removed.

Olli barley seeded early or the middle of June has proven to be an effective control for wild mustard. Seeding should be at a heavy rate and fertilizer should be used.

FAIR CROWD AT MEETING

There was a fair attendance at the agricultural meeting held in the Scout hall last Friday evening, sponsored by the Community Club.

A very interesting and instructive address was given by Mr. N. F. Bell, district agriculturist. He stressed the danger of undulant fever from raw milk and urged that the cause of this be checked.

Mr. Umbrite, field man for the M. D. of Kneeshill, gave a report on his year's work. He mentioned the service board that has been set up in the municipality and the work it is doing. Slides were shown emphasizing the need for immediate measures of soil conservation and livestock improvement. He also mentioned weed conditions. Another speaker was Mr. Irwin who gave a very interesting address.

CARBON NEWS

★ The Carbon Junior Athletic Club are sponsoring a dance in the Scout Hall on Friday, Feb. 14th. Come and have a good time.

Mr. Rowe returned to Carbon on Wednesday after spending the past six weeks at the Coast.

Mr. and Mrs. R. Hay took Dorothy to the clinic in Drumheller on Monday and it is reported that Dorothy will have to have her tonsils removed.

Service will be held in Christ Church, Carbon, Sunday, Feb. 16 at 3 p.m., Ven. Archdeacon Axon in charge.

A. Y. P. A. NOTES

Another successful whist drive was held in the Anglican church basement on Friday evening last. Thirteen tables were filled and contestants got to a good start commencing right on time. Twenty four hands were played and the following were winners: Ladies first, Mrs. M. Switzer. Gents first, Mr. R. J. Shaw. Prizes were also given to the lowest scores of the evening. Scores were totalled to those made in January and the standing to date follows:

L. Greenlee	321
C. H. Nash	312
E. Holmes	310
R. J. Shaw, Sr.	310
M. Nash	309
A. Switzer	307
E. Tricker	303
D. Hunt	302
R. Thorburn	300
A. White	298
L. Fox	297
P. Hunt	294
G. White	291
B. Williamson	288
H. Hunt	284
R. Barber	280
E. Hunt	284
R. Kary	284
J. R. Todd	281
G. Hunt	277
W. R. Van Loon	278
R. Hammel	272
W. Lambert	272
H. Greenlee	271

E. Fox	271
G. Garrett	271
N. White	270
D. Bramley	269
M. Milligan	266
C. H. Nash	258
N. Atkinson	257

There are many others with lower scores but these are the highest two month totals.

Next month will see the winner made possible so come and enjoy yourself that evening, March 7th. There will be prizes for the evening, also the special prize for the winner of the three months tournament.

A few slight casualties occurred in the toboggan party held last week which failed to reach us. Mrs. Switzer, a cut leg; Miss P. Hunt, bruised knee; Mrs. E. Hunt received many bumps in volunteering for the first ride down from "Spying Cop" but everybody seemed in good shape when weiners and buns and coffee were served later in the evening.

EVENING SERVICE AT CARBON UNITED

Preaching service at Carbon United church will be at 7.30 p.m. on Sunday, Feb. 16th.

The general meeting will be held immediately after the evening service. No morning service.

CARBON NEWS

The Junior Ladies' Aid will meet at the home of Mrs. Len Hay on Monday, Feb. 17th.

Mr. and Mrs. John Wolff and daughters of Cleveland, N.D., are visiting at the home of Mr. and Mrs. Ed. Martin.

There will be a reorganization meeting of the Carbon Fish and Game Association in W. A. Basher's office Monday evening, Feb. 17th.

Mr. J. I. Mortimer has taken over the B. A. Oil and Massey-Harris agencies in Carbon.

Carbon bonspiel got away to a good start Monday morning with 32 rinks participating. Full results next week.

Art Sangster of Rockyford took in the Drumheller bonspiel and we understand he is in the market for a quantity of aspirins.

The Community Club are sponsoring an Agricultural Meeting in the Scout Hall on Tuesday, February 18th.

The Carbon Branch of the Canadian Legion have a dance advertised for the Scout Hall on Friday, Feb. 28. Proceeds to fix up the Legion hall. Come on out and support the Legion.

...FOR
VETERANS
ONLY...

DO YOU WANT TO START
A BUSINESS OF YOUR OWN?

of going into partnership with a friend, the need for money to get going will be just about No. 1 item on your agenda.

CALL it what you will—the desire to stand on your own feet—the urge to get ahead under your own steam—"a business of my own" is probably for you, as for thousands of fellow-veterans, life's No. 1 ambition.

IF you have ideas of starting up in business for yourself, of improving your present set-up, or of going into partnership with a friend, the need for money to get going will be just about No. 1 item on your agenda.

HERE'S where you can look to the Bank of Montreal, which has already become "My Bank" to thousands of veterans from coast to coast.

DROP in and discuss your financial needs with your nearest B of M manager. He knows the details of the new Veterans' Business and Professional Loans Act, recently passed by Parliament for your benefit, and he is anxious to help go-ahead veterans. If your proposition is sound, there's money for you at the B of M.

Remember, when you ask for a loan at the B of M, you do not ask a favour.

Of great interest to agricultur-
al Canada is the British Labor
government's long awaited new
agricultural bill. Both farm or-
ganization officials and political
observers show a keen interest
in the debate on this bill in the
British parliament and both will
watch closely for some clue to
its possible effects on Canada.
Behind much of this interest is
speculation about what would
happen to our agriculture if
socialism should ever be seri-
ously considered in Canada.

**THE TWO PARTS
OF THE BILL**

The socialist agricultural bill
is in two parts. The first out-
lines the manner in which price
will be stabilized and markets
designated. The second part out-
lines the authoritarian control
over the management of farms
which would be exercised by
the government. The guaranteed
prices apply to cattle, sheep,
pigs, milk, eggs, wheat, barley,
oats, rye, potatoes and sugar
beets. It involves an eighteen
months guarantee for crops and
a two to four year guarantee for
livestock prices. The method or
formula for arriving at the guar-
anteed price is involved and
may turn out to be very unsatis-
factory for the farmers. Also in
the bill is the threat of limita-
tion to a restricted section of the
home market.

**POWER TO
TAKE POSSESSION**

It is the second section of the
farm bill which gives most
cause for serious consideration
here. It deals with what the gov-
ernment decides is good farm-
ing management and practice.
The power to take possession is
given to the British minister of
agriculture, after a warning to
the farmer that he is not effi-
ciently operating his farm. Ac-
cording to the requirements of
the law. He will first be placed
under government supervision
for twelve months and then if
he does not comply with the
directions of the government he
must lease his farm to an "ap-
proved" farmer.

A DEFEATIST BILL

The most apparent feature of
the socialist agricultural policy
is that it is a defeatist one and
aimed at maintaining perman-
ently an uneconomic standard
for agriculture in Britain. What
effect this will have on our mar-
ket for farm products is one of
the questions asked here.

OUR FISHING INDUSTRY

The full record of Canada's
fishermen during wartime is
now in view and their record of
service in feeding a hungry and
troubled world is a proud one.
Over four billion pounds of fish
caught and marketed during the
war, of which over two and three
quarter billion pounds were ex-
ported. In addition to this, huge
quantities of valuable and nec-
essary non-food fish products
such as meal and oil were pro-
vided. The peril was great but,

AID TO CHINA

Kala-Azar is not a word that
strikes terror into the hearts of
Canadian mothers. In China it
is the whisper of death, for Kala
Azar is "black fever," rife
among Chinese children in the
regions that were under Japa-
nese occupation from the Nan-
king border right up to the Sib-
erian boundary in Manchuria.

The Canadian Aid to China
Fund is keenly interested in
Kala Azar. Kala Azar is respon-
sible for one large item in the
Fund's 1947 budget, for which
an appeal for \$2,500,000 is now
being made. The reason is that
Kala Azar, fatal without treat-
ment, is almost always curable
with a 12-day administration of
a drug that costs \$5 per child.

Think of it: \$5 will save a
child's life.

The Canadian Aid to China
Fund has undertaken to support
mobile clinics to wipe out Kala
Azar in two big areas of the pro-
vince of Honan where there are
at least 20,000 cases. (In all
China there are probably up-
wards of two million cases.)
These clinics, staffed by the
Friends Ambulance Unit, move
from place to place. After 12
days at one point, the motor cir-
cus moves on to the next. The
treatment is done by young vol-
unteers who are not doctors but
who have acquired a specialized
skill. They work from dark to
dawn doing the difficult injec-
tions.

All this is, and will continue
to be, made possible through
contributions in Canada by Can-
adians to the Canadian Aid to
China Fund. There are twenty
thousand child lives to be saved
from a horrible disease. There
is the set-up which can save
them, if you give them the tools.
Make your contribution today.

**CARE OF
PIL LITTERS**

If young pigs are to develop
in health and strength the sow
must receive high quality feed
during the time she is suckling
them. At this time there is a
heavy drain of calcium and pro-
teins from the sow. If milk is
not available the sow's ration
should contain at least twelve
percent protein concentrate.
She should also have access to
good alfalfa hay.

At about three weeks of age
creep feeding of the little pigs
should start. Commercial pig
starters are suitable for this
purpose or the following mix-
ture may be used: 73 lbs. of
ground oats; 10 lbs. ground bar-
ley; 10 lbs. cracked wheat; 7
lbs. protein concentrate. Other
feed combinations may be used
but fibre content must be re-
duced to the minimum. Salt
and limestone must also be re-
duced to the minimum for
creep fed pigs. Where milk is
available it is suggested that
boiled barley (using very lit-
tle water) and a little milk, may
be relished by the young pigs.

It should be remembered that
suckling pigs require treatment
for anaemia with reduced iron
or Ferexate tablets. With Fere-
xate tablets treat on the 3rd,
6th, 9th and 12th days after
birth. If using reduced iron
treat on the 3rd, 10th and 18th
days.

to their high credit, it could not
deter the fisherman from going
regularly about their part in the
national war effort.

UNCLE HY SAYS:

I remember when a five cent
piece was a valued bit of cash.
I would buy a beer, a good cigar,
a sandwich or some hash, it
would pay for half a dozen eggs
the bribe to nosy boys, and on
the plate on Sunday morn, it
really made some noise.

But now that good old nickel
is a helpless sort of thing, it
can't do very much alone, no
one its praises sing, it must
have help to buy some bread,
some sugar or some tea, and
five cents for a quart of milk,
alas that couldn't be.

So turn you back the clock of
time to those old golden days,
when no one had so very much,
but was happier in most ways,
when folks were much more
friendlier, there was less of
sham, pretence and a lot of
things they needed most was
bought for just five cents.

**CASH FOR
NEW DISH**

Farm women are being urged
by the Alberta Government Tra-
vel Bureau to concoct a dish
which will be distinctively Al-
bertan and which will send tour-
ists who visit this province back
to their own home towns raving
about the good food they got
while on holidays in this fair
province.

"Boston has its baked beans,
Mexico its chile con carne and
even Winnipeg has Winnipeg
goldeyes so we, here in Alberta
where world champion food pro-
ducts are produced, should have
a dish for which we can become
as famous internationally," said
Dan E. C. Campbell, director of
the Travel Bureau.

"Tourists like our beef steaks
and I can't think of a better
meat dish to give them, but they
can get good steaks in other
places so we want ours to be
much better than others and
served with a distinctive sauce
or cooked in some special way
which will make it famous for
deliciousness all over the world"
Mr. Campbell added.

Conditions of the contest and
entry blanks for it may be ob-
tained from the local Treasury
Branch or by writing direct to
the Alberta Government Travel
Bureau, Legislative Building,
Edmonton.

CANADA'S Health

DENTAL ILLS

Modern living takes a heavy toll in dental ills. Man is no longer willing to eat foods requiring much mastication. Jaws and teeth do not get proper exercise. Children early acquire artificial tastes, when develop-

ment is taking place. They eat too much sugar with, and between meals. Experts point out that you can't be healthy and resist disease if you have broken down or decayed teeth.

EYE CARE

Care of the eyes is one of the prime health needs of our generation, say health authorities. With reading, writing, draughting and other modern techniques the eyes are under serious strain.

Importance of good lighting

for close work is stressed by the specialists and those who suffer even brief and apparently minor eye afflictions are urged to consult their family doctors about such ailments. What is bothering the eyes may be readily remedied, but serious trouble can result if these early warnings are neglected.

BLOOD TESTS

Periodic examination is a must these days, particularly before important events like marriage and parenthood. Canada's records prove that such examinations reveal a considerable number of unsuspected cases of syphilis, which can be transmitted to children.

A blood test in time, it is stressed, may save family unhappiness and a lifetime of regret. Treatment makes syphilis non-contagious in a matter of weeks.

DIET FADS

Slimming is not the fad it once was. But too many people, even today, think themselves qualified to decide just what they should not eat. Except when following the instructions of doctors who have had opportunities for examinations and assessment of special needs of individuals, people are actually endangering their health by dieting.

Normal people need only normal meals. Unless the family physician gives contrary instructions, Canadians should eat all the wholesome foods.

WORLD OF WHEAT

By H. G. L. Strange

Britain Protests Wheat Deliveries

The "London Times", the "Daily Express", the "Sunday Despatch" and the "Glasgow Herald" carry editorials protesting against Canada's delivery for the first five months of the crop year of much less wheat than Britain expected under the British Canadian Wheat Agreement. Canada's Agreement was 160 million bushels a crop year, and Britain it appears thought this would mean that in five months from August to December she would receive 66 million bushels instead of which she only received 51 millions, or 15 million short, which Britain has to buy from other countries at much higher prices. The matter is complicated by the fact that Canada, during the five months, shipped 35 million bushels to countries other than Britain.

These, of course, are all natural troubles that come out of agreements between two governments, particularly where the contract buyer is paying much less than other countries are paying. Other countries, too, it appears are dissatisfied because Canada is charging them \$2.27 a bushel for wheat when the same wheat is being offered to Britain at \$1.55. All of which goes to show what a multitude of vexatious troubles come from these inter-governmental bilateral agreements, particularly when the same product is quot-

ed at different prices to different countries.

THE SCARCITY OF EDUCATION

The man in the street has no difficulty in understanding why here is a scarcity of bacon, beef, cement and lumber, but an explanation of the scarcity of education today in Alberta is not such an easy matter.

Six years of war depleted enormously the farm stock of Europe, so meat and animal products throughout the world are in very great demand. Millions of homes were destroyed by war, and millions more remained unbuilt during the war, so building materials are hard to get.

But the educational crisis in Alberta is quite different from this. There are more students enrolled in the schools than there were ten years ago. There are as many school buildings as there ever were. There is more money in circulation and fewer things to spend it on than ever before in peace time. The set-up should be perfect for plenty of education for everybody. And yet, more than 15,000 of our children are condemned to mailbox education, and some thousands more get none at all.

This looks like a man-made crisis in education which a wise administration could clean up if it really believed that good schools and good teachers should be the first call upon the province's resources.

"LOOK!
A CHEQUE FROM
UNCLE JOHN!"

It is Bobby's tenth birthday... Uncle John has sent him a cheque. His father explains how Bobby can go to the bank and get cash that very day!

When you make out a cheque, you give an order to your bank to pay the amount specified to the person named.

If he lives on the next street, or thousands of miles away, he can take your cheque to his local bank and get the money.

He cannot get it without a receipt—his signature on the back of the cheque. If yours is a Current Account, your cheque comes back at the end of the month, and so you have a permanent record and receipt of the payment.

The enormous convenience of the chequing system is just one of the many services provided by your bank... for you.
